Installation Guide - Kacific
In high wind areas keep the mast pipe as close (low) to the last mast support as possible. Keeping the mast pipe to within a few feet of the top of the mount is best especially if a larger antenna is in use. If you will be installing a rotor keep the mast pipe between the rotor and the antenna as short as possible.

TV Antenna Installation Guidelines
The lost signal has to be compensated by choosing a proper antenna gain. B&B's 900 MHz Zlinx and Zlinx Xtreme radios come standard with a 3 dBi Omni antenna and the 2.4 GHz radios come with a 2.1 dBi gain Omni antenna. If more gain is necessary, choose a higher gain antenna depending on your system requirement.
