The Northeaster uses Chesapeake Light Craft's patented LapStitch process, in which pre-cut planking is assembled quickly with wire stitches and nothing more than a pair of ordinary sawhorses. Hull planking is 6mm okoume; the bottom is 9mm, fiberglassed on both sides and up onto the side planking. Bulkheads are laminated together from layers of 9mm plywood.

Interior Plastics More Economical than you think. By Jim Cavanagh. A few months back we ran a story on the refurbishing of an airplane, and the author mentioned that because of the costs of interior parts, he elected to repair the existing parts and then, because of the repairs, upholster them with various materials to match the interior.
