According to this approach, a complex project was a project difficult or complicated because of high risk or involvement of a multitude of management and technical factors (Whitty & Maylor, 2009 ...

(PDF) And then came Complex Project Management (revised)

Technical competence is easier to get than the soft skills. You can go on a training course to learn your project management software, or the best ways to create a project schedule or do cost control. Yes, you can go on a course to learn more about leadership, but somehow it's harder to truly internalise the changes required to lead in a different way and sustain that level of personal change ...
