schema (containing the Oracle Applications FND (Foundation) tables and views). Oracle Applications EULs employ Oracle Applications user names and responsibilities whereas standard EULs use database users and roles.

Using Discoverer with Oracle Applications

The product's user interface will already be familiar to Oracle users, although (as noted in third party peer review sites) end users may find it challenging to create dashboards and have limited choices for visualizations. As a BI product, OBIEE requires a data warehouse set up that many Discoverer users may not have in place.

The Ultimate Guide to Replacing Oracle Discoverer

RE: Generating Oracle Discoverer Viewer reports

Hello Discoverer worksheets can only be displayed on an Oracle Portal using Discoverer Portlets. To make these work you have to be using Discoverer against a full application server not just running stand-alone. This means you have to have enabled an infrastructure database complete with OID for user authentication.
