Construction Claims: Proving & Pricing Acceleration Claims This is an advanced, workshop based, intense bootcamp on calculation of quantum for Acceleration Claims Rating: 4.1 out of 5 4.1 (76 ratings)

**Construction Claims: Proving & Pricing Acceleration Claims ...**  
There are several basic methods for pricing construction claims. The simplest method is the total cost method. The over-simplicity of the total cost method causes it to be frowned on and accepted only in extreme cases. The modified total cost method attempts to address those weaknesses but still faces similar criticisms.

Proving and Pricing Subcontractor Delay Claims1. James G. Zack, Jr., CCM, CFCC, FAACEI, FRICS, PMP2. & Thomas F. Peters, P.E., CFCC3. Abstract – Much has been written over the years about proving and pricing contractor claims on construction projects. But little has been published about subcontractor delay claims.

**Proving and Pricing Subcontractor Delay Claims1**  
Construction delays are one of the most common disputes that arise on projects. However, the process of establishing and proving a delay claim can get complicated quickly. That's why having a comprehensive understanding of the necessary elements to justify a delay claim can be a priceless advantage.

**Construction Delay Claims: Types, Claims, and Defenses**  
Update on Proving and Pricing Inefficiency Claims. Lost productivity is a primary contributor to cost overruns that affect many construction projects. In simple terms, loss of productivity (also referred to as inefficiency, disruption, or impact) can be defined as the increased cost of performance caused by a change in the contractor's anticipated or planned resources, working conditions, or method of performance.

**Update on Proving and Pricing Inefficiency Claims**  
Claims documents need to be produced with top quality print, well reproduced graphics, and with an introduction which invites the potential reader to look inside and read the case. In most cases, the burden of proving any given claim rests with the claimant; he who asserts must prove. Claims must therefore be adequately documented.
