Story Mapping is a better way to work with Agile User Stories. User Story Mapping is a dead simple idea. Talk about the user's journey through your product by building a simple model that tells your user's story as you do. It turns out this simple idea makes working with user stories in agile development a lot easier.

User Story Mapping - Jeff Patton & Associates

Story mapping is a technique championed by Jeff Patton. It provides us with a way to envisage the entire product or service as a series of tasks which the user completes. In purely practical terms, it involves building a grid of user stories which are laid out under headings that represent the user's experience moving through your product.
