Ground problems are the top cause of issues with trailer wiring. Begin by cleaning the ground connections. Each component should have its own ground to the frame of the trailer. If the trailer lights flicker on and off, there is a good chance the trailer is grounding by way of the hitch instead of through the trailer's wiring connector.

### Troubleshooting Trailer Lights - A Simple Guide

Some trailer wiring harness 4-Way and 7-Way connectors require a power wire to be routed from the harness to the vehicle battery. The power wire is required on trailer wiring harnesses for some vehicles because the electrical system on those vehicles cannot handle the amperage draw associated with trailer lights.

### Routing the Power Wire for a Trailer Wiring Harness ...
